Make decisions with JavaScript	JavaScript is a programming language used for web development as well as the server. Learn the syntax for controlling data flow in JavaScript and its significance when used with Boolean data types.	Aug 4, 2022	14 min
Create modular code by using functions in JavaScript	Functions are the building blocks for any application you'll create. With functions, you can create named, reusable sections of code to help make it more readable and maintainable. This module explores the core concepts of functions when used for web development to	Aug 4, 2022	25 min

make HTML interactive.

JavaScript  
variables and  
data types

JavaScript is a programming language used for web development as well as the server. Learn about variables and the data types that populate them.

Aug 4, 2022

17 min

Learn the  
basics of web  
accessibility

This module covers various concepts on the topic of accessibility and how to add it to your web applications during web development. You will learn the importance of using HTML tags properly to describe information, and various improvements you can make to your sites.

Aug 4, 2022

15 min

Introduction  
to  
programming

Learn about programming languages and the tools that developers use to create software for web development.

Aug 4, 2022

20 min

Work with  
others by  
practicing  
active  
listening

Learn how to work with others by practicing active listening.

Aug 3, 2022

1 hr 9 min

Communicate  
with others  
strategically  
through  
mirroring and  
coaching

Learn how to communicate with others strategically by using the mirror and coach roles.

Aug 3, 2022

30 min

Use self-  
regulation to  
work  
strategically

Learn how to use self-regulation to work strategically.

Aug 3, 2022

41 min

Grow your  
cognitive  
flexibility

Learn about the importance of cognitive flexibility and about how to grow your cognitive flexibility.

Aug 3, 2022

33 min

Give and receive effective feedback	In this module, you'll learn how to give and receive effective feedback.	Aug 3, 2022	36 min
Exercise your emotional intelligence	Learn how to exercise your emotional intelligence.	Aug 3, 2022	40 min
Cultivate a culture of belongingness in tech	Learn how to cultivate a culture of belongingness in tech.	Aug 3, 2022	40 min
Enhance your self-efficacy	Learn how to enhance your self-efficacy.	Aug 2, 2022	31 min
Develop a growth mindset	Learn how to distinguish between a growth mindset and a fixed mindset and how to develop a growth mindset.	Jul 29, 2022	32 min

Collaborate in teams and channels with Microsoft Teams	Learn how to collaborate in Microsoft Teams through conversations in channels and chats, sharing files, and using Outlook with Teams. Personalize your environment by managing your notification settings and organizing your teams, channels, and chats.	Jul 26, 2022	43 min
Create and manage teams and channels with Microsoft Teams	Learn how to create teams and channels, add apps and tools to your teams, and manage team settings as a team owner in Microsoft Teams.	Jul 25, 2022	46 min

Introduction to collaborating with Microsoft Teams

Learn how you can use Microsoft Teams to communicate and collaborate more effectively with the people you work with.

Jul 25, 2022

25 min

Implement a code workflow in your build pipeline by using Git and GitHub

Learn along with the Space Game web team the benefits of collaboration through Visual Studio Code and GitHub.

Dec 5, 2021

1 hr 27 min

Build and deploy applications to Azure by using GitHub Actions

Create two deployment workflows using GitHub Actions and Microsoft Azure.

Dec 5, 2021

59 min

Build continuous integration (CI) workflows by using GitHub Actions

Learn how to create workflows that enable you to use Continuous Integration (CI) for your projects.

Dec 5, 2021

1 hr 7 min

Manage software delivery by using a release based workflow on GitHub

Learn to implement a release based workflow on GitHub using project boards, branches, and releases.

Dec 5, 2021

1 hr 44 min

Automate GitHub by using GitHub Script

Learn to interact with the GitHub API from GitHub Actions by using GitHub Script.

Nov 17, 2021

25 min

Automate DevOps processes by using GitHub Apps

Learn to automate DevOps processes by using GitHub Apps that handle repetitive tasks, enforce team policies, and maintain a tidy repository.

Nov 17, 2021

43 min

Maintain a secure repository by using GitHub best practices

Learn best practices for building, hosting, and maintaining a secure repository on GitHub.

Nov 16, 2021

35 min

Communicate effectively on GitHub by using Markdown

Learn to use Markdown to communicate with brevity, clarity, and expression.

Nov 16, 2021

1 hr 2 min

Manage an InnerSource program by using GitHub

Learn to manage a successful InnerSource program on GitHub through effective discoverability, guidance, and maintenance.

Nov 16, 2021

50 min

Search and organize repository history by using GitHub

Learn to search and organize repository history by using filters, blame, and cross-linking on GitHub.

Nov 15, 2021

38 min

Settle competing commits by using merge conflict resolution on GitHub

Learn to settle overlapping commits across branches by using merge conflict resolution.

Nov 15, 2021

52 min
